

Bottle Sleeving

— NOVEMBER 2024

Introducing EXPO-NET Bottle Sleeving – an innovative time-tested protection sleeve that not only ensures safe transportation of bottles, but also serves as a stylish and effective solution, providing retailers with a cost effective method of protection at point of sale. Our sleeve is a recognised and respected media, used by leading retailers and Duty Free outlets. The sleeves are also used in food hampers or for transporting bottles ordered by on-line shoppers.

ECONOMICAL - EFFECTIVE - PROFESSIONAL

Bottle Sleeving

- Cost effective
- Minimizes breakages
- Easy to apply
- Packed in small boxes for practical handling
- A range of products to suit your exact needs
- Does not obscure labelling

Our market reach extends across various sectors, including retail, Duty-Free sales, on-line retail, and hampers. Elevate your product presentation with EXPO-NET Bottle Sleeving that forms easily around all bottle shapes and sizes, and which can be supplied in corporate colour as a marketing aid. The sleeves are made from polyethylene, are reusable, recyclable, can be disposed of safely and minimises packaging requirements - ensuring efficient bottle protection with minimal environmental impact.

MADE FROM VIRGIN OR RECYCLED POLYETHYLENE

High-quality products

- Supplied in a range of standard sizes (made from virgin material)
- Alternative sleeves available in a recycled version (up to 100% recycled polymer)
- Light weight and low volume

EXPLORE OUR RANGE OF RECYCLED PLASTIC BOTTLE SLEEVES AND VIRGIN SLEEVING EXCELLENCE

Introducing our bottle sleeves made of recycled polyethylene - an innovative alternative that seamlessly incorporates the technical qualities of our original virgin sleeving range. Experience the same high-quality protection for your bottles while making a conscious choice for a modern, forward-thinking solution.
