

Global R30 Protective Sleevings

OCTOBER 2024

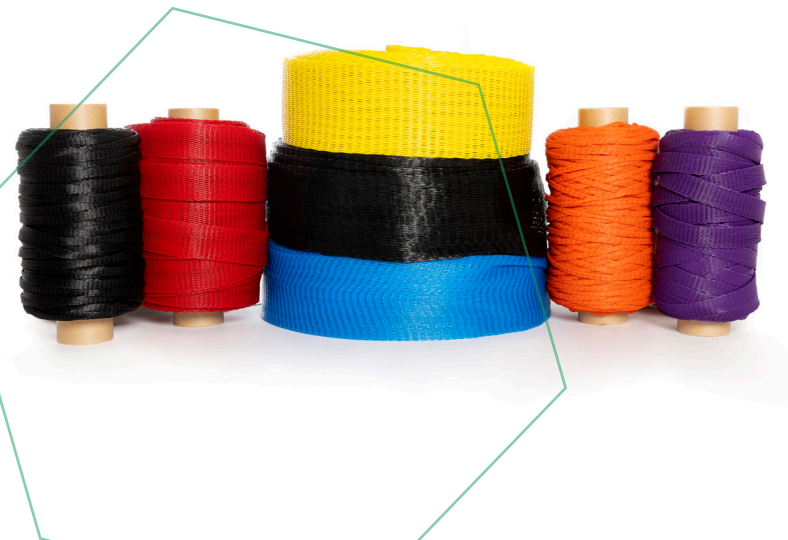

Global R30 is a complete range of protective sleeving. In addition to all of the standard characteristics of our other ranges of sleeving, Global R30 is manufactured using a minimum of 30% recycled polymer, which means the carbon footprint is much lower than any of our 'virgin polymer' ranges. For those customers based in the UK, this range of products is exempt from the Plastic Packaging Tax. All EXPO-NET products have full traceability and are manufactured meeting the requirements of the ISO 9001:2015 and ISO 14001:2015 standards.

BENEFITS OF USING GLOBAL R30 PROTECTIVE SLEEVING

- Forms around all objects from cylindrical to more complex shapes
- Remains soft and formable between temperatures from - 40° C to + 85° C
- Lower volume than some other protective packaging
- Minimises surface scratching, scuffing and indentations
- Reusable
- Can be cut to exact size
- Reduces transportation costs
- Colour coded for ease of use
- Resistance to grease, oil, water and some acids
- Recognised and respected protection media
- Used by leading manufacturers and retailers

Article no.	Colour	Diameter	Roll length	Rolls per box
8100916-20-R30-8	Orange	6-17mm	250m	1
8201246-90-R30-8	Black	10-25mm	250m	1
8303062-40-R30-8	Violet	25-60mm	50m	1
8404722-30-R30-8	Red	50-100mm	50m	1
8721252-11-R30-8	Yellow	100-200mm	50m	1
8931262S-50-R30-8	Blue	200-400mm	50m	1
8972150S-91-R30-8	Black	400-800mm	80m	1

These products contain recycled polymer, therefore, expect to see natural variation from batch to batch.

- **Part of our new recycled range of products**
- **Contains 30% recycled polymer**
- **High quality flexible sleeving**
- **7 products cover diameters from 6mm – 800mm**

EXPO-NET R30 Global Protective Sleeve protects parts from 6mm to 800mm in diameter. The products are manufactured from low density polyethylene (LDPE) creating a flexible netting enabling ease of application around even awkward shaped objects. Protective sleeving offers a cost effective method of protecting goods against surface damage to components, during transportation and storage.

EXPO-NET DANMARK A/S

We offer customised solutions in alternative colours and pre-cut lengths

GLOBAL 30% RANGE —

ENVIRONMENTALLY AWARE

Maximising operational efficiency
Minimising waste
Recyclable, incinerable & disposable
Metal-free solutions

ONE-STOP SOLUTION

From design to manufacture
Offering customized solutions

TOP QUALITY

Safe & easy handling
High temp. resistant
ISO 9001 & 14001 certified

EXPERTISE

Established in 1959
Supplying leading filtration manufacturers
Independently audited
